Dear Sirs:

Re: e-mail of Office Action?

USSN: 10/033,472; "Method and composition for Treating diabetes"

Having checked the PAIR system, I know that the final Office Action had been mailed on: 4/20/2004.

If the major rejection reason in the Office Action could be digested and sent to me by e-mail, it will be highly appreciated for my timely response. However, if it takes time and may increase your work load. Then, please forget my present request.

My e-mail address is: hpatent@ms18.hinet.net

Thanks and regards.

Respectfully requested:

Ching-Ming Chang
